Our 2014-16 strategy is embedded in the following pillars:

**Innovation and Learning**
- Goal: To become a global thought leader and renowned practitioner in the art and science of teaching boys through evidence-informed practice.
- BGS provides learning that inspires boys to become innovators, collaborators, entrepreneurs and creative problem solvers who will succeed and lead in this new world.

**High Performance Learning Community**
- Goal: To have the highest quality, best performing, passionate staff who motivate and inspire each boy to reach his personal best. We actively engender a culture of aspiration and continuous renewal and improvement.

**Growth & Wellbeing**
- Goal: To develop a culture for the growth and wellbeing of boys, staff and parents. To be successful, everyone needs to develop important character strengths including hope, empathy, curiosity, resilience, compassion and accountability.

**Three Cornered Partnership**
- Goal: To move from parent involvement to school-wide parent engagement. We will walk beside, and on occasions guide, parents providing opportunities for them to engage effectively in their son's education.

**Enablement**
- Goal: To provide the best possible learning environment to meet the specific needs of boys at each stage of their journey through the School. This includes facility development, harnessing the power of technology, improved communications and efficient business practice while remaining financially sustainable.

Underpinning the strategy are our values:

**Passion**: for teaching and learning

**Respect**: for people and everything around us

**Integrity**: in behaviour and decision making

**Accountability**: for our actions, contributions and achievements
