Relationships with Children

Our aim is to demonstrate excellent relationships with children. It is important that all children in our care feel comfortable in their environment and have an active role in the development of care and educational programs. Strategies include:

- Children will always be treated with the upmost respect by our staff members
- Staff will be sensitive to the needs of children and aim to promptly satisfy needs
- Staff will acknowledge and celebrate individuality
- Our environments will promote development of trust, security and a sense of self and well being
- Respect a child’s privacy
- We promote the development of relationships with children based on collaboration and consultation about care and educational programs
- Staff will model appropriate social interactions and behaviours for children
- Children’s opinions and comments will always be considered and respected
- Children will have choice within all programs and these choices will be respected

Staff will communicate with children in a calm and a professional manner at all times.
