Datasheet

HP EliteBook x360 1030 G8 Notebook PC

With 360° of versatility across four modes, unmatched security, and up to 18 hours of battery life, the sleek and light HP EliteBook x360 is the perfect PC for highly mobile and active learners.

Ideal for students

The HP Elitebook Pro x360 has passed military grade MIL-STD 810G testing and is one of the largest selling enterprise-grade devices in the market.

The new HP rechargeable Active Pen provides an authentic pen-to-paper experience, and magnetically attaches to the device with proximity alerts if left behind, while class work is protected with HP Sure View feature which renders the screen unreadable when viewed from the side. HP Wolf Security proects the device from the BIOS level up.

At just 1.28kg, easily switch between four different user modes on the 13.3-inch full HD multi-touch screen toughened with Gorilla® glass, which provides students the flexibility to work, watch or create with the ideal device for the task at hand.

Specifications
